SUBJECT INDEX TO VOLUME 142

ABDOMEN
surgery, elective, resection of aortic aneurysms, 22 year review, 321
safe intra-abdominal and efficient wound drainage, 415
wound closure, burying suture knots in, 408
trauma, blunt, simplified method of lavage, 741
Abnormalities and deformities
craniofacial, severe, reconstruction, 750
Adrenal glands
excision, for metastatic cancer of breast, 743
Amputations
forequarter, evaluation in malignant diseases, 381
Aneurysms
aortic, abdominal, elective resection, 22 year review, 321
Antibiotics
concentrations, experimental, in hepatic interstitial and wound fluids, 235
preventive, experimental, effects on neutrophil phagocytosis as measured by nitroblue tetrazolium dye test, 725
regional, experimental, infusion, of heart, 519
Aorta
abdominal, aneurysms, elective resection, 22 year review, 321
aneurysms, abdominal, elective resection, 22 year review, 321

BACTERIA
bacille Calmette Guérin, intraperitoneally administered, immunostimulation with, for advanced malignant tumors of gastrointestinal tract, 363
Escherichia coli, live, experimental, physiopathology responses of rhesus monkey, 893
growth, experimental, effect of oxidized regenerated cellulose, 481
Biliary tract
disease, treatment, U tube, 912
ducts, surgery, nonanastomatic hepaticogastrostomy for palliative decompression, 586
inflammation, acute, clinical management, 369
roentgenography, endoscopic retrograde, indications, clinical value and complications, 865
Bladder
incontinence, stress, urodynamic assessment, and therapeutic implications, 343
surgery, technique for closure of temporary cystostomy, 915
urinary, stress incontinence, assessment, and therapeutic implications, 343
Blood
bacteremia, colonoscopy associated, 173
cancer; carcinomia, leukemia, chronic myelogenous, evaluation of splenectomy, 689
circulation, peripheral, revascularization procedures, intraoperative assessment, 83
coagulation, and fibrinolytic response to splenectomy, 731
dialysis, arteriovenous fistulas using modified bovine arteries, 700
experimental, versus cross hemodialysis in hepatic coma, 845
maintenance, hyperparathyroidism in, 328
erythrocyte-free, primate, experimental, transport of oxygen and carbon dioxide by hemoglobin-saline solution, 357
gastrin levels, experimental, effect of acute hemorrhage, 353
hemodilution, crystalloid versus colloid, 506
hemoglobin, experimental, saline solution transport of oxygen and carbon dioxide, red cell-free primate, 357
hemorrhage, acute, experimental, effect on gastrin secretion rate and blood levels of gastrin and insulin in normal dogs and after vagotomy, 353
simple test to determine site of, in upper part of gastrointestinal tract, 241
hyperbilirubinemia, in acute cholecystitis, 855
sepsis, severe, related acute gastroduodenal lesions, 377
serum, lipid levels, effects of total parenteral nutrition, 565
transfusion, cardiorespiratory responses to, of surviving and nonsurviving critically ill postoperative patients, 33
Blood pressure
high, extrahepatic portal, internal jugular venous autograft, 62
Blood vessels
arteries, aortofemoral, bypass grafting simplified profundoplasty during, 80
bovine, arteriovenous fistulas for dialysis, 700
experimental, endothelium, changes after ischemia and perfusion, 715
femoral, superficial, injury, with femoral shaft fracture in civilian accidents, 399
internal carotid, surgical correction of tortuosity, with autogenous arterial patch graft, 580
occlusion, embolic isotope angiography, 57
palmar arch, circulation, Allen test, assessed by Doppler ultrasound, 861
profunda femoris, angioplasty in revascularization of ischemic limb, 840
surgery, angioplasty, in revascularization of ischemic limb, 840
splenic, experimental and clinical, ligation, in selected patients with hepatic cirrhosis and in rats, 1
fistulas, arteriovenous, for dialysis using modified bovine arteries, 700
surgery, inferior mesorenal shunt, as second procedure for portal decompression, 84
veins, deep, thrombosis, noninvasive prevention of, using pneumatic compression, 705
inferior mesorenal shunt, as second procedure for portal decompression, 84
internal jugular, autograft in extrahepatic portal hypertension, 62
Bone
craniofacial, surgery, severe deformities, reconstruction, 750
femur, fracture, shaft, with injury of superficial femoral artery in civilian accidents, 399
Breast
cancer; carcinoma, advanced, treatment with nafoxidine hydrochloride, 560
classification systems, analytic critique, 513
familial, and genetic heterogeneity, 693
metastatic, adrenalectomy, 743
occult preoperative localization, 917
role of preoperative bone scan, 722
trace metal levels, 65
tumors, occult, preoperative localization, 917
Burns
infections, Pseudomonas, experimental, zinc sulfadiazine for topical therapy, 553
treatment, experimental, $F(ab')_2$ fragment, use in skin transplantation, 524
topical, experimental, zinc sulfadiazine for Pseudomonas infection, 553

CANCER
breast, carcinoma, advanced, treatment, nafoxidine hydrochloride, 560
carcinoma, analytic critique of existing classification systems, 513

familial, genetic heterogeneity, 693
metastatic, adrenalectomy, 743
occult preoperative localization of, 917
role of preoperative bone scan, 722
trace metal levels, 65
cells, carcinoma, abnormal, comparison of colposcopy directed biopsy and cold knife conization, 333
cervix uteri, carcinoma, in situ, in pregnancy, 396
gastrointestinal tract, carcinoma, immunostimulation with intraperitoneally administered bacille Calmette Guérin, 363
pancreas, carcinoma, percutaneous biopsy, guided by angiography, 737
surgery, evaluation of forequarter amputation, 381
multimodal, adjuvant therapy for malignant tumors, 882
treatment, conization, cold knife, compared to colposcopy directed biopsies in patients with abnormal cytology, 333
multimodal surgical adjuvant, 882

Catheter
drainage, suction, obstruction, method to prevent, 748

Collective Review
Application of transfer factor to clinical immunotherapy, 765
Bovine arterial graft and its several applications, 104
Detection of abscesses by radioactive isotopes and external scanning, 427
Elemental diet, 925
Lactic acidosis, 593
Management of gastric polyps, 933
Stress in surgical patients as neurophysiologic reflex response, 257
Survey of current status of clinical uses of antilymphocyte serum, 417
Treatment of cancer of large intestine, 97

Drugs
antiestrogen, nafoxidine hydrochloride, value in advanced carcinoma of breast, 560
dopamine, experimental, effect on renal microcirculation in hemorrhagic shock, 871
heparin, monitoring effect by bioassay, laboratory observations and clinical implications, 673
sodium, experimental, clinical, units, in 1 milliliter of normal saline solution, heparin-lock maintenance, 373

Dyes
test, nitroblue tetrazolium, experimental, effects of preventive antibiotics on neutrophil phagocytosis, 725

Editorial
Anastomosis should be made without tension, 75
Gastrointestinal intensive care unit, 404
Irradiated tissue and biopsy, 239
New look at surgical ablation for advanced cancer of breast, 578
Postoperative overdistention of bladder, 901
Way-out thinking, 801

Embolism
fat, circulating, chemical composition, released during total hip prosthesis, 189

Enzymes
analysis, of peritoneal blood in clinical assessment of abdominal organ injury, 161
cellular, role in polyglactin 910 suture absorption, 544
pancreatic, experimental, response to elemental diet, 71

Esophagus
stricture, dilatable, improved technique for Collis gastroplasty, 591
surgery, gastric pull-through, for replacement of cervical portion, 243
varix, bleeding, experience with Linton-Nachlas and Sengstaken-Blakemore tubes for, 529

Extremities
lower, ischemic, angioplasty in revascularization of, 840
upper, amputation, in malignant disease, 381

Fractures
femoral shaft, with injury of superficial femoral artery in civilian accidents, 399

Gallbladder
inflammation, acalculous, diagnostic technique, 168
acute, significance of hyperbilirubinemia, 855

Gastrointestinal tract
cancer; carcinoma, immunostimulation with intraperitoneally administered bacille Calmette Guérin, 363

Genital tract
hermaphroditism, male, incidence in girls with inquinal hernia, 875

Hand
anatomy, palmar arch, Allen test for continuity, assessed by Doppler ultrasound, 861

Heart
infusion, experimental, regional antibiotic, 519
response, and respiratory response, to transfusion of surviving and nonsurviving critically ill postoperative patients, 33

Hernia
inguinal, in females, incidence of male hermaphroditism, 875
repair, iatrogenic cryptorchidism, 671
surgery, iatrogenic cryptorchidism, 671

Immunity
stimulation, with intraperitoneally given bacille Calmette Guérin for advanced malignant tumors of gastrointestinal tract, 363
tumors, experimental, regional lymphadenectomy, 385

Infection
bacterial, experimental, Pseudomonas, in burns, zinc sulfadiazine, for topical therapy, 553

Instruments and apparatus
centrifuge, experimental, hepatocyte perfusion, 21
dissector, sharp, aid to better surgical procedure, 589
Doppler ultrasound, critique of Allen test for continuity of palmar arch by, 861
inflatable surgical boot, intermittent pneumatic compression, noninvasive prevention of deep vein thrombosis, 705
Linton-Nachlas and Sengstaken-Blakemore tubes, for bleeding esophageal varices, 529
ultrasound, percutaneous puncture of pancreatic cysts guided by, 551

Intestines
anastomosis, disparate segments, method, 910
colon, colonoscopy associated bacteremia, 173
colostomy, irrigation, 905
inflammation, caused by irradiation, 569
ischemia, 337
simulating fecaloma, neoplasm, 664
duodenum, ampulla of Vater, intraoperative location, 410
lesions, acute, related to severe sepsis, 377
tumors, primary, 858
ulcers, perforated, new treatment, 391
postbulbar peptic, 13
rectum, Kraske's posterior approach, 412
small, bypass, pathogenesis of diarrhea, 686
metabolic considerations in reconstitution, after jejunoileal bypass, 177
radiation injury, surgical management, 325
surgery, bypass, gastric acid and serum gastrin secretion before and after, 521
surgery, bypass, small, pathogenesis of diarrhea, 686
revise of bypass procedures, 829

Isotopes
angiography, detection of embolic arterial occlusion, 57
^{125}I-Vicryl, absorbable sutures, surgical radiation therapy, 667
scintiscan, bone, preoperative, role in carcinoma of breast, 722

Joints
hip, prosthesis, total, chemical composition of circulating fat emboli released during, 189

KIDNEYS
blood supply, experimental, microcirculation, effect of dopamine on, in hemorrhagic shock, 871
transplantation, experimental role of complement in hyperacute xenograft rejection reaction, dominant, 29

LIVER
cirrhosis, experimental and clinical splenic artery ligation in selected patients and rats, 1
coma, experimental, hemodialysis versus cross hemodialysis, 845
function, after shock, clinicopathologic study, 657
interstitial fluid, experimental, antibiotic concentrations in, 235
perfusion, experimental, hepatocyte, within centrifuge, 21
transplantation, orthotopic, 487
Lungs
canine, function, experimental, evaluation in ischemic expanded, 573
function, response, and response of heart, to transfusion of surviving and nonsurviving critically ill postoperative patients, 33
Lymphatic system
lymph nodes, experimental, excision, regional, and tumor immunity, 385

NUTRITION
elemental diet, continual catheter administration of, 184
metabolic considerations in reconstitution of small intestine after jejunoileal bypass, 177
parenteral, in surgical patients, 16
total, effects on serum lipid levels, 565

OBESITY
morbid, gastric acid and serum gastrin secretion before and after bypass of small intestine, 521

PANCREAS
cancer; carcinoma, percutaneous biopsy, angiography guided, 737
cysts, percutaneous puncture, guided by ultrasound, 551
enzymes, experimental, response to elemental diet, 71
roentgenography, endoscopic retrograde, indications, clinical value and complications, 865
transplantation, experimental, extra-abdominal, 877
Parathyroid glands
disease, hyperparathyroidism in maintenance dialysis patient, 328
Peritoneum
blood, enzyme analysis of, in clinical assessment of abdominal organ injury, 161
surgery, experimental, role, in healing abdominal incisions, 729
Physiopathology
responses, experimental, of rhesus monkey to live Escherichia coli, 893

RADIATION
injurious effects, management of colitis, 569
to small intestine, surgical management, 325
therapy, surgical, with Vicryl-^{125}I, absorbable sutures, 667
Roentgen rays
diagnosis, angiography, percutaneous biopsy of carcinoma of pancreas, 737
cholangiopancreatography, endoscopic retrograde, indications, clinical value and complications, 865
technique, for acalculous cholecystitis, 168

SALIVARY GLANDS
parotid, excision, technique, 87
Shock
hemorrhagic, experimental, effect of dopamine on renal microcirculation, 871
hypovolemic, clinicopathologic study of hepatic dysfunction, 657
Skin
closure, new technique, 406
grafts, experimental, use of $F(ab')_2$ fragment for burns, 524
improved technique for primary malignant melanomas after excision, 584
preparation, effect on wound contraction, 49
Spleen
excision, coagulation and fibrinolytic response, 731
evaluation in chronic myelogenous leukemia, 689
rupture, delayed, or delayed diagnosis, 171
Stomach
emptying, experimental, of liquids after different vagotomies and pyloroplasty, 41
lesions, acute, related to severe sepsis, 377
secretion, acid and serum gastrin, before and after bypass of small intestine, 521
experimental, gastrin, effect of acute hemorrhage on rate, and blood levels of gastrin and insulin in normal dogs and after vagotomy, 353
surgery, Collis gastroplasty, improved technique, for dilatable esophageal stricture, 591
nonanastomatic hepaticogastrostomy for palliative decompression, 586
pull-through, for replacement of cervical portion of esophagus, 243
Surgeon's Library
Becket's murder at Canterbury, 753

Surgery
experimental, accelerated healing in infected wounds, 537
antibacterial activity of oxidized regenerated cellulose, 481
antibiotic concentrations in hepatic interstitial and wound fluid, 235
arterial endothelial changes after ischemia and perfusion, 715
and clinical, heparin-lock maintenance with 10 units of sodium heparin in 1 milliliter of normal saline solution, 373
splenic artery ligation in selected patients and rats with hepatic cirrhosis, 1
dominant role of complement in hyperacute xenograft rejection reactions, 29
effect of acute hemorrhage on gastrin secretion rate and blood levels of gastrin and insulin in normal dogs and in dogs after vagotomy, 353
dopamine on renal microcirculation in hemorrhagic shock, 871
preventive antibiotics on neutrophil phagocytosis as measured by nitroblue tetrazolium dye test, 725
evaluation of function in ischemic, expanded canine lung, 573
extra-abdominal transplantation of pancreas, 877
hepatic coma, hemodialysis versus cross dialysis, 845
hepatocyte perfusion within centrifuge, 21
pancreatic enzyme response to elemental diet, 71
physiopathology responses of rhesus monkey to live Escherichia coli, 893
regional antibiotic infusion of heart, 519
lymphadenectomy and tumor immunity, 385
role of peritoneum in healing of abdominal incisions, 729
transport of oxygen and carbon dioxide by hemoglobin-saline solution in red cell-free primate, 357
use of $F(ab')_2$ fragment in skin transplantation for burns, 524
vagotomies and pyloroplasty, gastric emptying of liquids, 41
gynecologic, abdominal hysterectomy in obese women, 532
postoperative care, parenteral nutrition, 16
postoperative study, elective resection of abdominal aortic aneurysms, 22 year review, 321

closure of temporary cystostomy, 915
correction of internal carotid tortuosity with autogenous arterial patch graft, 580
gastric pull-through operation for replacement of cervical portion of esophagus, 243
improved, for Collis gastroplasty for dilatable esophageal strictures, 591
excision and skin grafting for primary malignant melanomas, 584
inferior mesorenal shunt as second procedure for portal decompression, 84
intraoperative assessment of peripheral revascularization procedure, 83
location of ampulla of Vater, 410
Kraske's posterior approach to rectum, 412
new, for skin closure, 406
nonanastomotic hepaticogastrostomy for palliative decompression, 586
to prevent suction catheter drainage obstruction, 748
radiation therapy with Vicryl-^{125}I absorbable sutures, 667
rapid performance of parotidectomy, 87
reconstructive, severe craniofacial deformities, 750
safe intra-abdominal and efficient wound drainage, 415
sharp dissector as aid in, 589
simplified abdominal lavage in blunt trauma, 741
profundoplasty during aortofemoral bypass grafting, 80
U tube in treatment of biliary disease, 912
Surgical pros and cons, 77, 903
Sutures
absorbable, experimental, polyglactin 910, and role of cellular enzymes, 544
Vicryl-^{125}I, surgical radiation therapy, 667
polyglactin 910, experimental, absorption, and role of cellular enzymes, 544
technique, burying knots in abdominal wound closure, 408

TESTES
undescended, iatrogenic, 671
Transplants
grafts, arterial, aortofemoral bypass simplified profundoplasty during, 80
arterial, patch, surgical correction of internal carotid artery tortuosity, 580
skin, experimental, use of $F(ab')_2$ fragment for burns, 524
improved technique of excision, for primary malignant melanomas, 584
preparation, effect on wound contraction, 49
venous, internal jugular, in extrahepatic portal hypertension, 62
kidney, experimental, role of complement in hyperacute xenograft rejection reaction, 29
liver, orthotopic, 487
pancreas, experimental, extra-abdominal, 877
Trauma
abdominal, organ, enzyme analysis of peritoneal blood in clinical assessment, 161
accidental, civilian femoral shaft fracture with injury of superficial femoral artery, 399
blunt, simplified abdominal lavage, 741
radiation, to small intestine, surgical management, 325
thermal, burns, units, method to compare results with base line curve, 230
Tumors
fecaloma, simulating colonic, 664
malignant, advanced, of gastrointestinal tract, immunostimulation with intraperitoneally administered bacille Calmette Guérin, 363
evaluation of forequarter amputation, 381
multimodal surgical adjuvant therapy, 882
occult, of breast, preoperative localization of, 917
primary, of duodenum, 858
melanoma, primary, improved technique of excision and skin grafting for, 584

UTERUS
cervix, biopsy, comparison of colposcopy directed, and cold knife conization in patients with abnormal cytology, 333
cancer; carcinoma, in situ, in pregnancy, 396
excision, abdominal, in obese women, 532
pregnancy, cancer; carcinoma, in situ, 396

WHAT'S NEW IN SURGERY, 193–229
Wounds
abdominal, closure, burying suture knots, 408
contraction, effect of skin graft preparation, 49
drainage, intra-abdominal, efficient and safe, 415
fluid experimental, antibiotic concentrations, 235
infection, experimental, accelerated healing, 537

ABSTRACTS SUBJECT INDEX TO VOLUME 142

ABDOMEN
abdominotransanal resection, Babcock-Bacon type, 451
aneurysms, and thorax, resection, 979
exploration, and splenectomy, complications, Hodgkin's disease, staging, in children, 982
and perineum, resection, obstruction of small intestine after, 626
and scrotum, hydrocele, 625
surgery, and incidental appendectomy, for trauma, 650
laparotomy, low incision, invisible scar, 314
splenectomy, in management of early Hodgkin's disease, 159
vagotomy, stability of insulin induced gastric secretion, 121
upper, incision, extraperitoneal para-aortic node dissection, 805
wall, replacement, plastic mesh, 625
wounds, disruption, 981
Abnormalities and deformities
arteriovenous, malformations, brain, computerized transverse tomography, 117
transverse-sigmoid sinus, syndromes, 437
blood vessels, intracranial, 437
calcaneovalgus foot, treatment, elongation of Achilles tendon, 976
congenital, absence of vagina, clinical and psychologic aspects, 965
absence of vagina, urologic and genital anomalies, 966
arteries, coronary, and myocardial ischemia, 445
corpus callosum, angiography, 315
esophageal atresia, repair, bougienage, electromagnetic, 446
hepatic fibrosis, diagnosis and surgical management, 961
hydronephrosis, of ureteropelvic junction, histology, 468
megacolon, treatment and postoperative complications, 955
tetralogy of Fallot, in children, 799
repair, 622, 797
intracardiac, 622
craniofacial, acquired and developmental, middle third osteotomies, 115
orbital hypotelorism, 946
dentofacial, acquired and developmental, middle third osteotomies, 115
hip, 975
osteodystrophy, renal, and slipped epiphyses, 641
paralytic pelvic obliquity, prognosis, correction, 305
radius, head, anterior angulation, 642
vertebral column, dislocations, kyphosis, scoliosis, anterior grafts, thoracic approach, 973
Acid-base balance
and electrolytes, in infants of diabetic mothers, delivery, vaginal versus cesarean section, 463
fetal and maternal, effect of placental transport of alcohol on, 462
Adrenal glands
blood vessels, veins, roentgenography and ultrasonics, 477
cortex, insufficiency, in postmature infants, 810
supracostal approach, 971
tumors, pheochromocytoma, 140
roentgenography, diagnosis, 454
Amino acids
and proteins, maternal, and fetal growth and mental development, 811
Amputations
extremities, upper, prosthesis, 645
Anesthesia
acupuncture, 824
cardiac arrest, in infants and children, 476
complications, of repeated and long, 313
epidural analgesia, and reduced delivery rate, 984
epidural, pregnancy, breech presentation, 809
ether, halothane, lactate, pyruvate, and excess lactate during, in infants and children, 823
gas flow patterns, effect on breathing and gas exchange, while on respirator, 314
halothane, epinephrine, induced cardiac arrhythmias, and heart rate, 984
ventilation system, design, effect on air contamination, in operating theaters, 653
morphine, halothane, postoperative respiratory effects, in cardiac surgery, 650
for out patient varicose vein operations, 824
presynaptic inhibition, 824
solubility coefficients, for maternal and fetal blood, 313
succinylcholine, hyperkalemia, pathophysiology, 476
Antibacterial agents
bladder, 302
hexachlorophene blood levels, in infants, 147
Antibiotics
actinomycin D, for gestational trophoblastic disease, 987
for basilar skull fractures, 951
clindamycin, association with pseudomembranous colitis, 956
kanamycin, gentamicin, for neonatal sepsis and meningitis, 983
penicillin, allergy, 987
resistance, Treponema pallidum, 475
prophylactic, and wound infections, after laminectomy for lumbar disc herniation, 792
Anticoagulants
during and after pregnancy, 821
Antigens
carcinoembryonic, assay, 654
plasma levels, in bronchial carcinoma and chronic bronchitis, 987
Anus
abdominotransanal resection, Babcock-Bacon type, 451
imperforate, hymen, 135
sphincter, anatomy, muscles, levator ani, puborectalis and defecation, 956
Aorta
abdominal, aberrant pulmonary vessels, and congenital heart defects, in children, 799
aneurysms, infection, 979
treatment, straight tube, 648
ascending, aneurysms, 445
aneurysms, and regurgitation, Marfan's syndrome, surgical experience, 797
to pulmonary artery anastomosis, and cardiac malformations, in children, 446
coarctation, and mitral valve disease, associated, 291
obstruction, postnatal development, 798
recurrent, complex, bypass grafts, 799
regurgitation, acute, due to infective endocarditis, hemodynamic severity, 130
suprarenal, injuries, penetrating, management, 821
thoracic, aneurysms, post-traumatic, 980
Aspiration
needle, biopsy, diagnosis, carcinoma of breast, 123
breast, cysts, 123
vacuum, abortions, first trimester, late, 458
Axilla
hidradenitis suppurativa, surgical treatment, 121

BACTERIA
Shigella flexneri, vulvovaginitis, in children, 296
Staphylococcus, aureus, transmission, during renal transplantation, 656
osteomyelitis, sepsis, and pulmonary disease, 973
Biliary tract
atresia, extrahepatic, cause, 960

bile, acid, intravenous tolerance test, 139
jaundice, and pregnancy, 803
cysts, 960
disease, roentgenography, endoscopic retrograde, diagnosis, 452
ducts, atresia, treatment, 959
cancer; carcinoma, occult malignant growth, 452
common, anastomosis with automatic stapling, in experimental hepatic transplantation, 138
calculus, removal, dormia basket, 453
transcystic operation, 630
endoscopy, influence on choice of operation, 452
and pancreas, roentgenography, retrograde, endoscopic, complications, 961
roentgenography, transhepatic, percutaneous, 961
jaundice, roentgenography, diagnosis, minilaparotomy, 452
and liver, disease, lipoprotein-X, 453

Bladder
actinic damage, 815
antibacterial defense mechanism, 302
cancer; carcinoma, and cyclophosphamide, 470
false cytodiagnosis, due to radiation therapy, 640
fluorouracil, arterial infusion, and supervoltage radiation therapy, 816
radiation therapy, precystectomy, 815
catheterization, intermittent, rehabilitation, and spinal cord injury, 302
displacement, lateral, 972
dysfunction, after Schauta hysterectomy, 971
explosions, during transurethral operations, 816
exstrophy, 815
ureterosigmoidostomy, in children, 815
hemorrhage, formalin, secondary to cystitis or cancer, 815
neck, contracture, and urethral stricture, complications of renal transplantation, 988
neurogenic, hypertonic, treatment, selective sacral rhizotomy, 119
stimulation, electronic, 469
electronic, in paraplegics, 468
hypotonia, 470
tumors, malignant, false cytodiagnosis, due to radiation therapy, 640
radiation therapy, hematuria after, 303
and vagina, fistula, after hysterectomy, transvaginal closure, 470

Blood
calcium, excess, and acute pancreatitis, 158
cancer; carcinoma, leukemia, granulocytic, chronic, splenectomy, 630
leukemia, lymphocytic, effect of radiation therapy of central nervous system on neurophysiologic function, in children, 614
coagulation, and fibrinolytic system, and lymphatic system, in traumatic shock, 157
rapid, and conjugated estrogen, 479
dialysis, bilateral nephrectomy and splenectomy, complications, 480
prevention of hepatitis B surface antigenemia, 649
disease, anemia, thalassemia, and pregnancy, and iron, 459
hemophilia, pseudotumor, 974
erythrocytes, arachnoid, clearance, 119
flow, arteries, popliteal region, electromagnetic measurement, 977
hyperbilirubinemia, pregnancy, oxytocin, 810
hyperkalemia, induced by succinylcholine, pathophysiology, 476
lipoprotein-X, in hepatobiliary disease, 453
lymphocytes, effect on cultured normal and malignant cells, 654
response, and prognosis, in carcinoma of lung, 827
thymus, bone marrow, renal transplantation, 828
maternal and fetal, anesthetic solubility coefficients, 313
plasma, carcinoembryonic antigen, in bronchial carcinoma and chronic bronchitis, 987
peripheral, clomiphene, gonadotropin, steroid sex hormones, infertility, ovulation, 633
platelets, size, influence of cardiopulmonary bypass on, 824
seral hexachlorophene levels, in infants, 147
transfusion, filters, Dacron wool, 312
urine, microscopic evaluation, 302
after radiation therapy, tumors, bladder, 303

Blood pressure
high, benign, intracranial, cerebrospinal fluid pressure, circulation, 951
benign, intracranial, diagnosis, prognosis, 951
ocular, treatment, norepinephrine, 115
portal, portacaval anastomoses, 474
and vena caval, and Gaucher disease, roentgenography, preoperative, 979
and pregnancy, human placental lactogen levels, 966
renovascular, surgical treatment, in children, 977
systemic, in neurosurgery, 824
low, in neurosurgery, 476
pregnancy, maternal and fetal acid-base relation, gestosis, 808

Blood vessels
aneurysms, brain, computerized transverse tomography, 117
arteries, anastomosis, end-to-side, free flap transfer, 122
aortoiliac, reconstruction, extraperitoneal approach, 821
carotid, aneurysms, management, 284
electroencephalographic monitoring, 979
internal, roentgenography, 980
cerebral, anterior, occlusion, for anterior communicating aneurysms, 789
posterior, angiography, anatomic variations, 282
choroidal, posterior, measurement and displacement by hydrocephalus, by tumors of the pineal region or brain stem, 787
communicating, anterior, aneurysms, cerebral arterial occlusion for, 789
posterior, aneurysms, surgical treatment, 282
coronary, abnormalities, congenital, and myocardial ischemia, in adults, 445
aneurysms, 623
anomalies, congenital, surgical treatment, 444
bypass grafts, in stable angina, 291
collateral formation, effect of myocardial depression on, 129
disease, operation for, 130
surgery, morbidity and mortality, 622
nitrous oxide and morphine, 314
femoropopliteal, blood flow, electromagnetic measurement, 977
femorotibial, reconstruction, and autogenous venous bypass grafts, 978
gastrointestinal tract, upper, bleeding, selective embolization, 954
grafts, infected, 473
great, transposition, Blalock-Hanlon procedure, 799
transposition, with ventricular septal defect and pulmonary stenosis, 621
hepatic, occlusion, chronic, 822
inflammation, extremities, lower, roentgenography, 651
malformations, brain, computerized transverse tomography, 117
mesenteric, infarction, revascularization, 821
occlusion, after cannulation, 821
peripheral, disease, in diabetes mellitus, 979
popliteal, aneurysms, management, 647
injuries, surgical treatment, 822
pulmonary, anastomosis, to

ascending aorta, and cardiac malformations, in children, 446
renal, aneurysms, operation, 474
